About the Creators of INDIGO

James Twyman - (<http://www.jamestwyman.com>) is a singer/songwriter and the author of **Emissary of Love**, **The Psychic Children Speak** and **Messages from Thomas: Raising Psychic Children**. Internationally renowned "*Peace Troubadour*," James has a reputation for drawing millions of people together in prayer to influence events of world crisis. In 1995 he had an experience in the mountains of Croatia that led to his best-selling book **Emissary of Light**, called "the second coming of the Celestine Prophecy" by Variety Magazine. His six books have been translated into over a dozen languages, and his CD's are distributed around the world.

James has been invited by world leaders to countries like Iraq, Northern Ireland, Israel, South Africa and Serbia to offer his insights on peace and perform the "*Peace Concert*," often while conflicts have raged in those countries. He has performed twice at the United Nations in New York, as well as the US Capitol and the US Pentagon. His peace projects, including the "Cloth of Many Colors," have inspired millions of people around the world.

In 2001 James met a young boy named Marco who led him on a journey to Bulgaria. While there he met four psychic children who were being trained at a secluded monastery. Their message, which is the subject of Twyman's book, "*Emissary of Love, The Psychic Children Speak to the World*," was expressed in a question the children said they wanted to ask the adults of the world: "How would you act and what would you do if you knew that you are an Emissary of Love right now?" Since then James has distributed many messages from these amazing children, and has organized a number of conferences allowing the consciously aware children the chance to express their wisdom.

Neale Donald Walsch - (<http://www.cwg.org>) is the best-selling author of the **Conversations with God** series of books, including the most recent book in the series: **Tomorrow's God**. Available throughout the world, each of the CwG dialogue books has made the New York Times Bestseller list, **Conversations with God - Book 1** occupying that list for over two and half years. In addition, Neale has also published 12 other works, as well as a number of video and audio programs.

The *With God* Series has redefined God and shifted spiritual paradigms around the globe. In order to deal with the enormous response to his writings, Neale, along with Nancy Fleming-Walsch, created the Conversations with God Foundation, a non-profit educational organization dedicated to inspiring the world to help itself move from violence to peace, from confusion to clarity, and from anger to love.

He has also worked as a performer, director, or technician on over 100 stage plays, and has acted on television and in films as well.

Stephen Simon - (<http://www.mysticalmovies.com>) is a veteran producer whose distinguished career includes the Presidency of two major production companies and the development and production of a myriad of well-known films such as: **Smokey and the Bandit**, **The Goodbye Girl**, **The Electric Horseman**, **Somewhere in Time**, the Academy Award winning **What Dreams May Come**, and the Emmy-nominated Lifetime movie **Homeless to Harvard: The Liz Murray Story**. He is also author of the definitive work "*The Force is With You: Mystical Movie Messages that Inspire Our Lives*," published by Walsch Books, an imprint of Hampton Roads. Simon is also co-founder of The Spiritual Cinema Circle.

Recognizing the powerful effect - both positive and negative - that the media has upon our culture, Simon has become the leading spokesperson for a new genre he has coined as "*Spiritual Cinema*." Spiritual Cinema examines who we are and why we are here and illuminates the human condition through stories and images that inspire us to explore what we can be as a humanity when we operate at our very best. Spiritual Cinema reflects our beliefs and values and illustrates their impact upon our lives and our society. In this context, spiritual refers not to religion but to the unseen divine essence that is life force itself. History has revealed that individuals or cultures that lose their connection to this essence become devoid of love, respect and compassion.
