Explanation of Finance Charge: Your Finance Charge is computed on all cash advances from the date each cash advance is made until we receive payment in full. We figure the Finance Charge on your line of credit by applying the daily periodic rate to the "Average Daily Balance" (Finance Charge Balance) of your line of credit including current transactions. To get the average daily balance we take the beginning balance of your line of credit each day, add any new cash advances or debits, and subtract any payments or credits, fees and unpaid Finance Charge. This gives us your daily balance. Then we add up all daily balances and divide this total by the number of days in the billing cycle to get the average daily balance. Then we multiply the average daily balance by the daily periodic rate times the number of days in the billing cycle. The Daily Periodic Rate is figured by dividing the Annual Percentage Rate by the number of days in a year (365/366 days).

CREDIT INFORMATION: If you believe we have reported inaccurate information about your account to a credit reporting agency, you may contact the credit reporting agency or write to us at:

Key Credit Research Department P.O. Box 94518 Cleveland, Ohio 44101-4518
